**Compliance**

We have audited the University of Georgia Research Foundation, Inc.'s (t

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

**Schedule of Expenditures of Federal Awards**

We have audited the financial statements of the Foundation as of and for the year ended June 30, 2011, and have issued our report thereon September 21, 2011, which contained an unqualified opinion on those financial statements. Our audit was performed for the purpose of forming an opinion on the basic financial statements as a whole. The accompanying supplemental schedule of expenditures of federal awards and the information presented in Exhibit I are presented for the purpose of additional analysis as required by U.S. Office of Mana

## **Notes to the Schedule of Expenditures of Federal Awards and Supplemental Schedule**

**For the Year Ended June 30, 2011**

### **Note 1 - Basis of presentation**

The accompanying schedule of expenditures of federal awards includes the federal grant activity of the University of Georgia Research Foundation, Inc.'s (the "Foundation") subrecipient, the University of Georgia, and is presented on the cash basis of accounting. Expenditures under award programs are shown on the cash basis of accounting in the Foundation's financial statements.

The purpose of the Schedule of Expenditures of Federal Awards is to present a summary of the activities of the Foundation for the year ended June 30, 2011, which have been financed by the United States Government.

Because the Schedule of Expenditures of Federal Awards presents only a selected portion of the activities of the Foundation, it is not intended to and does not present either the financial position, changes in fund balances, or cash flows of the Foundation.

### **Note 2 - Subrecipient**

The Foundation provided federal awards to the University of Georgia as a sub-recipient.

### **Note 3 – Non-cash awards**

The University of Georgia Research Foundation, Inc. did not receive any non-cash federal awards during the year ended June 30, 2011.

### **Note 4 – Catalog of Federal Domestic Assistance ("CFDA") Numbers**

CFDA numbers that are available for each federal award program are indicated on the supplemental schedule of governmental, restricted accounts by agency at Exhibit I.

### **Note 5 – Contingencies**

These award programs are subject to financial and compliance audits by grantor agencies. The amount, if any, of expenditures that may be disallowed by the grantor agencies cannot be determined at this time, although the Foundation expects such amounts, if any, to be immaterial.

### **Note 6 – State funds**

The State receives awards directly from the federal government and supplements those funds with its own funds. The State then awards a combination of federal and state funds to the Foundation. If the Foundation is unable to determine the federal portion, the entire amount is reported on the Schedule of Expenditures of Federal Awards.
